Invitation Letter from the Presidents

Dear Colleagues,

We are honored to invite you to ENDOFORUMPOLAND 2024 - the First International Congress on Endometriosis in Poland, which will take place on 22-25 May 2024 in Warsaw.

Let us invite you to participate in this unique international event attended by leading medical and academic figures from across the globe.

The congress will be held under the honorary patronage of the pioneer of minimally invasive surgery and one of the world's greatest authorities in endometriosis treatment, Professor Arnaud Wattiez.

The event is organized under the auspices of recognized international and Polish gynecological experts and societies: Minimally Invasive Surgery Academy, European Society for Gynecological Endoscopy, President of Polish Gynecology and Obstetrics Society (PTGiP) – Prof Piotr Sieroszewski, Chairman of Surgery Section PTGiP - Prof. Rafał Stojko, Polish Consultants of Gynecology and Obstetrics - Prof. Krzysztof Czajkowski and Polish Consultant of Oncological Gynecology – Prof. Mariusz Bidziński.

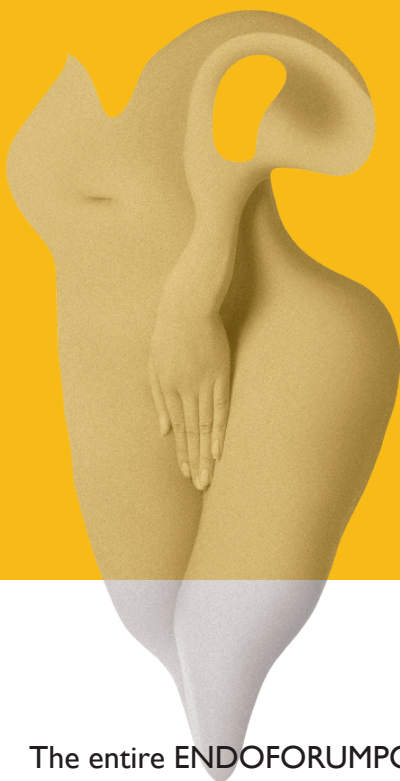

Congress will be attended by such world-recognized experts as Arnaud Wattiez (Dubai), Rudi Campo (Belgium), Benoit Rabischong (France), Ceana Nezhat (USA), Chuck Miller (USA), Jorg Keckstein (Austria), Marcello Cecceroni (Italy), William Kondo (Brazil), Grigoris Grimbizis (Greece) and many others. We are planning to invite 38 international and 50 Polish lecturers.

The official program will feature practical workshops, live surgery, panel sessions, and a special open patients' day. We expect to gather about 300 participants.

A huge variety of workshops performed by leading experts in their domain will give the exceptional opportunity to learn from the best of the best for those who expect a European level of education nowadays.

Live surgery transmitted from four ORs and led by great surgeons in advance minimally invasive surgery from the world gives the chance to follow each step of this passionate performance.

For those who are interested in the treatment of endometriosis, this is definitely the event of first choice in 2024 but we also invite all other specialties from the medical world of women's healthcare.

About ENDO Poland

ENDO Poland is the first international conference on endometriosis in Poland. This conference will be one of the most important medical events in 2024 in Polish gynecology. Among the 90 invited speakers, half are guest experts from abroad. The attendance of 300 participants is planned, mostly Polish and foreign professionals interested in and dealing with endometriosis.

Why Delegates should attend the ENDO Poland?

- 99%** - Up-to-date knowledge of recent advances in minimally invasive surgery
- 94%** - Establish new connections and collaborations
- 98%** - Providing a wide connection to the highest-quality clinical, scientific, and social interchange
- 99%** - Engage with industry peers and experts
- 98%** - Advanced clinical practice and surgical expertise

Why this Congress is the BEST place for our Exhibitors and Partners?

- 98%** - Explore for potential clients globally
- 96%** - Raise awareness of the company's brand
- 98%** - Promote surgical techniques through educational initiatives
- 95%** - Connect with current clients or partners
- 97%** - Present outstanding products and equipment
- 95%** - Broaden opportunities for surgeons and healthcare professionals

ENDO

POLANDFORUM2024

1ST INTERNATIONAL CONFERENCE ON ENDOMETRIOSIS IN POLAND

22-25 MAY 2024 WARSAW

Why was ENDO Poland created?

The conference is a response to the huge social needs, as well as the need to educate the medical community in the multiple aspects of endometriosis - a chronic disease affecting nearly 2 million Polish women, causing infertility, health, psychological, social and financial problems, and when not diagnosed on time - leading to serious, life-long effects on women's health, including disability.

It is worth mentioning that after many years of efforts of the suffering women, through the activities of social foundations, as well as appeals made by doctors dealing with endometriosis, on March 8, 2023 the Ministry of Health approved an expert endometriosis Team. The goal is to establish a treatment system and reference centers dealing with endometriosis patients suffering from this challenging and socially harming disease. Among the experts working in the Team is Prof. Ewa Milnerowicz-Nabzdyk and dr Paweł Siekierski, who will chair ENDOFORUM POLAND together.

Agenda Brief Overview

ENDOFORUM offers a comprehensive program featuring live surgical broadcasts, informative lectures with discussions, and expert workshops covering a wide range of surgical techniques. Engaging topics that includes operational anatomy, various surgical energy methods, diagnostics, laparoscopic suturing, and collaborative discussions among medical specialists from diverse fields like gynecology, oncology, gastrointestinal and general surgery, thoracic surgery, urology, physiotherapy, dietetics, anesthesiology, wound treatment, nutrition, and stoma care. Furthermore, the conference encourages involvement from patient foundations and individuals affected by these conditions, promoting a holistic approach to healthcare and surgery.

Venue

The Beautiful & Special Congress Venue

POLIN Museum of the History of Polish Jews (Polish: Muzeum Historii Żydów Polskich) is a museum on the site of the former Warsaw Ghetto. The Hebrew word Polin in the museum's English name means either "Poland" or "rest here" and relates to a legend about the arrival of the first Jews to Poland.

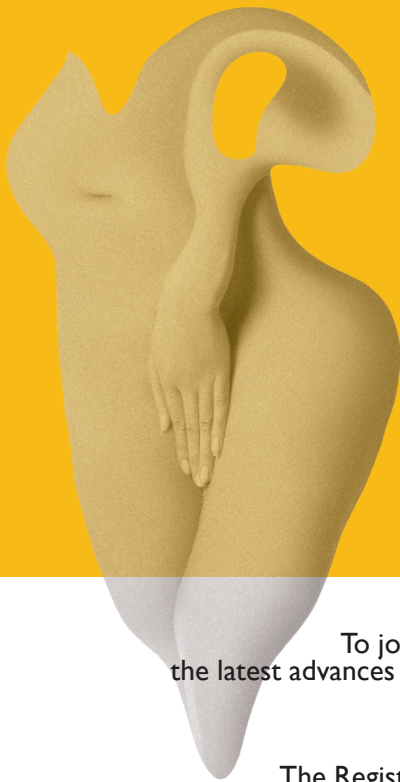

The museum's cornerstone was laid in 2007, and the museum opened on 19 April 2013.

The core exhibition opened in October 2014 and features a multimedia exhibition about the Jewish community that flourished in Poland for a thousand years up to the World War II Holocaust.

The building, a postmodern structure in glass, copper, and concrete, was designed by Finnish architects Rainer Mahlamäki and Ilmari Lahdelma.
